Re: proposed 10 year plan

Dear Commission member,

I am concerned about the proposed 10 year plan for the USPS. I live in a mountain community of 4,000 residents. We do not have home mail delivery and that is not my request. I do depend on the US Post Office for my first class mail and a variety of other services. Many of the USPS services have been gradually cut over the years. This 10 year plan doesn't realize how much rural communities depend on the USPS especially when there is no private business office supply or service in Wrightwood or close to our town.

I am requesting the USPS expand the services provided: copy facilities, fax facilities, passports, Fed EX and UPS drop offs, office supplies. Please don't take away USPS services from rural communities. The USPS makes it possible to live and work remotely.

Please improve and expand the USPS to meet our needs.

Sincerely,

Lynne Haile
